TRIPOD-LLM and GRRAS reporting map

Abbreviated topic labels map to official item identifiers. Locations identify the manuscript display or supplement section; author declarations and rater credentials marked for author completion remain open. Page numbers are left to final manuscript pagination.

Guideline	Item	Topic	Section	Notes
TRIPOD-LLM	1	Title	Manuscript title (ANALYSIS-PLAN section 7)	Reported at the named display or supplement location.
TRIPOD-LLM	2	Abstract	Manuscript abstract; results-sentences.md (author assembly)	Manuscript prose location; verify during author assembly.
TRIPOD-LLM	3a	Context	Manuscript Introduction (author assembly; ANALYSIS-PLAN section 7)	Manuscript prose location; verify during author assembly.
TRIPOD-LLM	3b	Intended users	Manuscript Introduction; eMethods Limitations	Reported at the named display or supplement location.
TRIPOD-LLM	4	Objectives	eMethods Adjudication process and primary endpoint	Reported at the named display or supplement location.
TRIPOD-LLM	5a	Data sources	eMethods Published-label target matching; eTable 2	Reported at the named display or supplement location.
TRIPOD-LLM	5b	Data distribution	eTable 2; eTable 3	Reported at the named display or supplement location.
TRIPOD-LLM	5c	Text dates	eMethods Dates and training exposure	Reported at the named display or supplement location.
TRIPOD-LLM	5d	Preprocessing	eMethods Algorithms and validation; prompt templates	Reported at the named display or supplement location.
TRIPOD-LLM	5e	Missingness	eMethods Inference and references; Table 3	Reported at the named display or supplement location.
TRIPOD-LLM	6a	Model identity	Supplement Run provenance; eMethods Dates and training exposure	Reported at the named display or supplement location.
TRIPOD-LLM	6b	Development	N/A: fixed provider model; no model development or fine-tuning	N/A: fixed provider model; no model development or fine-tuning
TRIPOD-LLM	6c	Inference settings	Supplement Run provenance	Reported at the named display or supplement location.
TRIPOD-LLM	6d	Outputs	eMethods Algorithms and validation; prompt templates	Reported at the named display or supplement location.
TRIPOD-LLM	6e	Classification	eMethods Algorithms and validation; Published-label target matching	Reported at the named display or supplement location.
TRIPOD-LLM	7a	Generative metrics	Table 3; eMethods Evidence binding and verification	Reported at the named display or supplement location.
TRIPOD-LLM	7b	Metric relevance	eMethods Adjudication process and primary endpoint; Inference and references	Reported at the named display or supplement location.
TRIPOD-LLM	7c	Outcome definition	eMethods Published-label target matching	Reported at the named display or supplement location.
TRIPOD-LLM	7d	Assessors	eMethods Adjudication process and primary endpoint; Manuscript Methods rater credentials (author completion required)	Author information required; the planned location is identified, but the statement is not supplied by these data.
TRIPOD-LLM	7e	Comparators	eMethods Input parity; prompt templates; Table 1	Reported at the named display or supplement location.
TRIPOD-LLM	8a	Annotation guidance	eMethods Algorithms and validation; Adjudication process and primary endpoint	Reported at the named display or supplement location.

Guideline	Item	Topic	Section	Notes
TRIPOD-LLM	8b	Annotation agreement	Table 2; eTable 13	Reported at the named display or supplement location.
TRIPOD-LLM	8c	Annotator experience	Manuscript Methods rater credentials (author completion required)	Author information required; the planned location is identified, but the statement is not supplied by these data.
TRIPOD-LLM	9a	Prompt design	Supplement Prompt templates and a filled example	Reported at the named display or supplement location.
TRIPOD-LLM	9b	Prompt data	Supplement Prompt templates and a filled example; eTable 1	Reported at the named display or supplement location.
TRIPOD-LLM	10	Summarization preprocessing	N/A: no summarisation task; source parsing described in eMethods Evidence binding and verification	N/A: no summarisation task; source parsing described in eMethods Evidence binding and verification
TRIPOD-LLM	11	Alignment evaluation	N/A: no instruction tuning or alignment training was performed	N/A: no instruction tuning or alignment training was performed
TRIPOD-LLM	12	Compute	Supplement Run provenance; eMethods API list-price reconstruction; time/cost eTables	Reported at the named display or supplement location.
TRIPOD-LLM	13	Ethics	Manuscript Ethics declaration (author completion required)	Author information required; the planned location is identified, but the statement is not supplied by these data.
TRIPOD-LLM	14a	Funding	Manuscript Funding declaration (author completion required)	Author information required; the planned location is identified, but the statement is not supplied by these data.
TRIPOD-LLM	14b	Conflicts	Manuscript Competing interests (author completion required)	Author information required; the planned location is identified, but the statement is not supplied by these data.
TRIPOD-LLM	14c	Protocol	ANALYSIS-PLAN.md; analysis/DEVIATIONS.md; eMethods Inference and references	Reported at the named display or supplement location.
TRIPOD-LLM	14d	Registration	Manuscript Protocol/registration statement (author confirmation required)	Author information required; the planned location is identified, but the statement is not supplied by these data.
TRIPOD-LLM	14e	Data access	Manuscript Data availability; results.html How to reproduce	Reported at the named display or supplement location.
TRIPOD-LLM	14f	Code access	results.html How to reproduce; Supplement Run provenance	Reported at the named display or supplement location.
TRIPOD-LLM	15	Public involvement	Manuscript Public involvement statement (author confirmation required)	Author information required; the planned location is identified, but the statement is not supplied by these data.
TRIPOD-LLM	16a	Data flow	Figure 3	Reported at the named display or supplement location.
TRIPOD-LLM	16b	Data characteristics	eTables 2–3	Reported at the named display or supplement location.
TRIPOD-LLM	16c	Clinical distributions	eTable 2; N/A for individual-patient distributions: report-level benchmark	Reported at the named display or supplement location.

Guideline	Item	Topic	Section	Notes
TRIPOD-LLM	16d	Analysis counts	Figure 3; Tables 1–3	Reported at the named display or supplement location.
TRIPOD-LLM	17	Performance	Figures 4–6; Tables 1–3; supplementary analyses	Reported at the named display or supplement location.
TRIPOD-LLM	18	Model updating	N/A: no model updating or adaptation was performed	N/A: no model updating or adaptation was performed
TRIPOD-LLM	19a	Interpretation	Manuscript Discussion (author assembly); results-sentences.md	Manuscript prose location; verify during author assembly.
TRIPOD-LLM	19b	Limitations	eMethods Limitations	Reported at the named display or supplement location.
TRIPOD-LLM	19c	Data challenges	eMethods Published-label target matching; Limitations	Reported at the named display or supplement location.
TRIPOD-LLM	19d	Implementation scope	eMethods Limitations; Manuscript Discussion deployment (author assembly)	Manuscript prose location; verify during author assembly.
TRIPOD-LLM	19e	Poor inputs	Table 3; eMethods Algorithms and validation; Limitations	Reported at the named display or supplement location.
TRIPOD-LLM	19f	User expertise	Manuscript Discussion human oversight (author assembly)	Manuscript prose location; verify during author assembly.
TRIPOD-LLM	19g	Future research	Manuscript Discussion future work (author assembly)	Manuscript prose location; verify during author assembly.
GRRAS	1	Title/abstract identification	Manuscript title and abstract (author assembly)	Manuscript prose location; verify during author assembly.
GRRAS	2	Measurement instrument	eMethods Algorithms and validation	Reported at the named display or supplement location.
GRRAS	3	Subject population	eTable 2; Figure 3	Reported at the named display or supplement location.
GRRAS	4	Rater population	Manuscript Methods rater credentials (author completion required)	Author information required; the planned location is identified, but the statement is not supplied by these data.
GRRAS	5	Rationale	eMethods Adjudication process and primary endpoint	Reported at the named display or supplement location.
GRRAS	6	Sample size rationale	Benchmark README-FOR-ALI.md sampling; Figure 3 (fixed available sample)	Reported at the named display or supplement location.
GRRAS	7	Sampling	eTable 2; benchmark README-FOR-ALI.md	Reported at the named display or supplement location.
GRRAS	8	Rating process and blinding	eMethods Adjudication process and primary endpoint	Reported at the named display or supplement location.
GRRAS	9	Independent ratings	Table 2; eMethods Adjudication process and primary endpoint	Reported at the named display or supplement location.
GRRAS	10	Statistical methods	eMethods Inference and references	Reported at the named display or supplement location.
GRRAS	11	Actual sample counts	Figure 3; Table 2	Reported at the named display or supplement location.
GRRAS	12	Sample/rater characteristics	eTable 2; Manuscript Methods rater credentials (author completion required)	Author information required; the planned location is identified, but the statement is not supplied by these data.

Guideline	Item	Topic	Section	Notes
GRRAS	13	Estimates and uncertainty	Tables 1–3; Figures 4–5	Reported at the named display or supplement location.
GRRAS	14	Practical relevance	Manuscript Discussion (author assembly)	Manuscript prose location; verify during author assembly.
GRRAS	15	Detailed results	Supplementary analyses; results.html; repository CSVs	Reported at the named display or supplement location.
