105 benchmark trials
3 excluded: designs ARBITER does not support
102 trials × D1–D5 = 510 domain cells, each rated independently by two blinded experts
Independent-rating comparison: all 510 cells. Overall derived for 102 trials; compared on 81 with a published Overall
154 disputed cells (either arm differs from Published)
356 cells with three equal labels (no forced-choice information)
80 where the arms disagreed
20 split
60 with an agreed forced choice (primary)
