Sources captured
levin-2016 / D2
Source: j.drugalcdep.2015.11.025.pdf; page 4
Result proposed
User approves result
Specified result proposed and approved unchanged
Model answers each signalling question citing passages
"All analyses were conducted on the intent-to-treat sample."
2.6 = Y
Server verifies each cited passage against captured sources
Active domain answer set:
2.1=PN; 2.2=PN; 2.6=Y
Server applies RoB 2 algorithm: proposed judgement; any override recorded with rationale
Proposed judgement: Low
Meta label: Some concerns
Consensus preferred judgement: Low
Verifiable bundle exported
Answers, evidence, source locators, decisions and verification record retained in the bundle
